Here are The 7 Questions You Must Ask When Choosing A Hardwood Flooring Contractor...

- 1) How Long Have You Been in Business?...** You bring your car to the same mechanic every time because they know your car. Well you'll have your floors a lot longer. A company that has been around a while is more likely to be there when you need them.
- 2) Are You insured?...** If they aren't insured, you have to wonder what other corners they're willing to cut. Don't take that risk!
- 3) Do You Have a Showroom?...** A showroom is a sign of a well established company. Make sure they let you bring samples home so you'll know how it will really look in your home.
- 4) Do you Deliver, Install, Sand & Finish The Products You Sell?...** Choosing a company that does it all, saves you the headache of finding a contractor for each step of your project.
- 5) Can you provide References?...** References from customers who have had the same work done that you're considering is what you should look for.
- 6) Do you Supply Maintenance Products?** There are a lot of cleaning products out there and most of them are bad for your floors. Take the guess work out of which ones to use by choosing a company that supplies wood floor cleaning products.
- 7) Is there a warranty?...** Many Companies don't have them. And remember, for the ones who do, things like a lifetime warranty don't mean a thing if they go out of business! Look for a company with a warranty and longevity.
